

Rebuilding Lives

After surviving a disaster or tragedy, you truly find out who is by your side. Sure there is insurance, but as history shows, you're not always fully covered. An example of this is when people from the Gulf area were told they had flood damage instead of storm damage. The difference crushed some and left other families with nothing.

More importantly than getting your material items back is knowing that strangers from all over the country came to you and your family. For us our satisfaction comes from seeing the happiness we create. For the individuals that have joined our trips, there is a feeling of knowing that they made a huge difference in someone's life.

Search, Rescue and Recovery

Search, Rescue and Recovery Personnel from Cops Helping Cops have assisted in Search, Rescue, and Recovery operations during some of our country's worst disasters.

What types of disasters has Cops Helping Cops been to?

Floods, Hurricanes, Terrorism, Blizzards, The Space Shuttle Columbia, and Fire.

Need Assistance during a disaster? Our type of searches include: Powered Parachutes, Extreme Terrain, GPS, Scuba, Marine, Aircraft, Type I, Type II, Type III, Quads, K-9, Equine, and of course, Individuals.

Donations

Our Biggest obstacle helping people comes down to just one thing: DONATIONS. Whether its rebuilding a life or searching for one, it's as simple as having enough money to do so. Supplies, tools, gear, and trades (fundraising, grant writing, etc.), are also needed.

Cops Helping Cops is a registered non-profit 501(c)3.

Donations can be made directly through our website at www.copsHELPCops.com.

Volunteering

Want to know what is more satisfying than taking a Caribbean holiday? Helping a person rebuild their house so they, and their family, have a home after a disaster. Even better is changing a person's life so much that their physical, mental, and spiritual wellbeing have been totally renewed.

Our Goals and Objectives

1. Assist any agency that provides emergency service to anyone, prior to, during, or after any emergency, disaster or event.
2. Assess, evaluate, and respond to the needs of individuals in both their personal and professional needs.
3. Make the lives of others better by being there to help.
4. Make a self-sufficient response team that is able to respond all over the nation, and eventually the world, on very short notice.
5. Provide an opportunity for first responders to volunteer, even after the initial emergency passes.
6. To be able to do all of these things without the normal constraints seen during major events and disasters.
7. To encourage Emergency Caregivers to share their talents and gifts.
8. To be responsible stewards of charitable resources.
9. To help support mental health.
10. To make the following statement and prove it:
